Hi Abigail - Thanks for bringing these issues to my attention. I will be submitting your issue(s) to ITSD. Just a few questions that I think will help ITSD in determining what is going on:

- Have you tried entering [REDACTED] more than once?
- What browser are you using?
- When the page jumps up to the top, have you noticed if it regularly happens when you get to a specific field or does it seem to randomly occur?

Subject: A2A

Hi, Emily.
This is a small thing I'm sure but there seems to be a little glitch with entering new clients. As I enter the information it often jumps back to the top of the page and I have to scroll back down to my place. Also I just enrolled [REDACTED], hit submit and don't see her name in the drop down box.
Thanks,

Abigail Chisom
